

1. RPL in your country: what is the status of the RPL system?

2. Which qualifications can be obtained through RPL processes?

3. Main barriers / challenges for wider RPL implementation in your country? (tick all that applies)

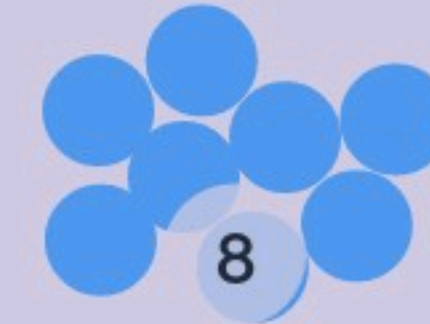

4. What do you recommend to enable RPL in your country? (tick all that applies)

Change of mindset: all forms of learning are valuable

Big RPL information campaign

Supportive legislation

NQF

Quality assurance of RPL

Research, statistics

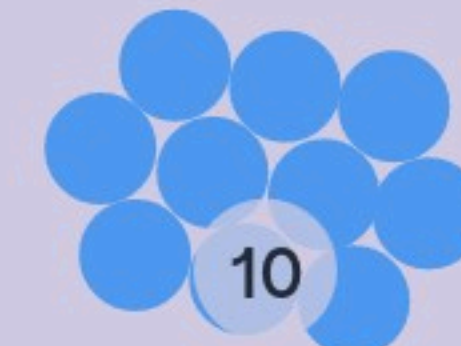

Financial resources

Cooperation between sub-sectors education

Civil society support

Involvement of employers

5. How should ACQF support RPL in the near future?

Your ideas

Assuring there are AGREED standards among stakeholders

Capacity Development of relevant staff

More awareness creation and campaign

Study tours

Training of RPL practitioners

Facilitate sharing of experiences by those who have developed RPL systems.

Best practices for private sector involvement

We need more discussions, more campaigns. The ideas on RPL should be broken down so that it is readily understood. What is the link between RPL and Higher Education for instance. Where is the transition point. Can one shift? The link and integration

be clear that validation of nonformal and informal learning is equitable/comparable to formal learning. only if it is considered comparable will it be valued. The decision or judgement of competence should be seen as equally valid outcome.

5. How should ACQF support RPL in the near future?

Your ideas
