## Session 18:

# Validation of Learning – CATS: Concepts, Policies, Application, Challenges

### Training Module 4

### 7<sup>th</sup> September 2022

### Johannesburg-South Africa

Facilitator: James Mwewa

Credit Accumulation and Transfer System (CATS) is one of the modes for validating and recognising learning through the recognition of credits. CATS is a form of RPL used to recognise and validate formal learning

# Introduction

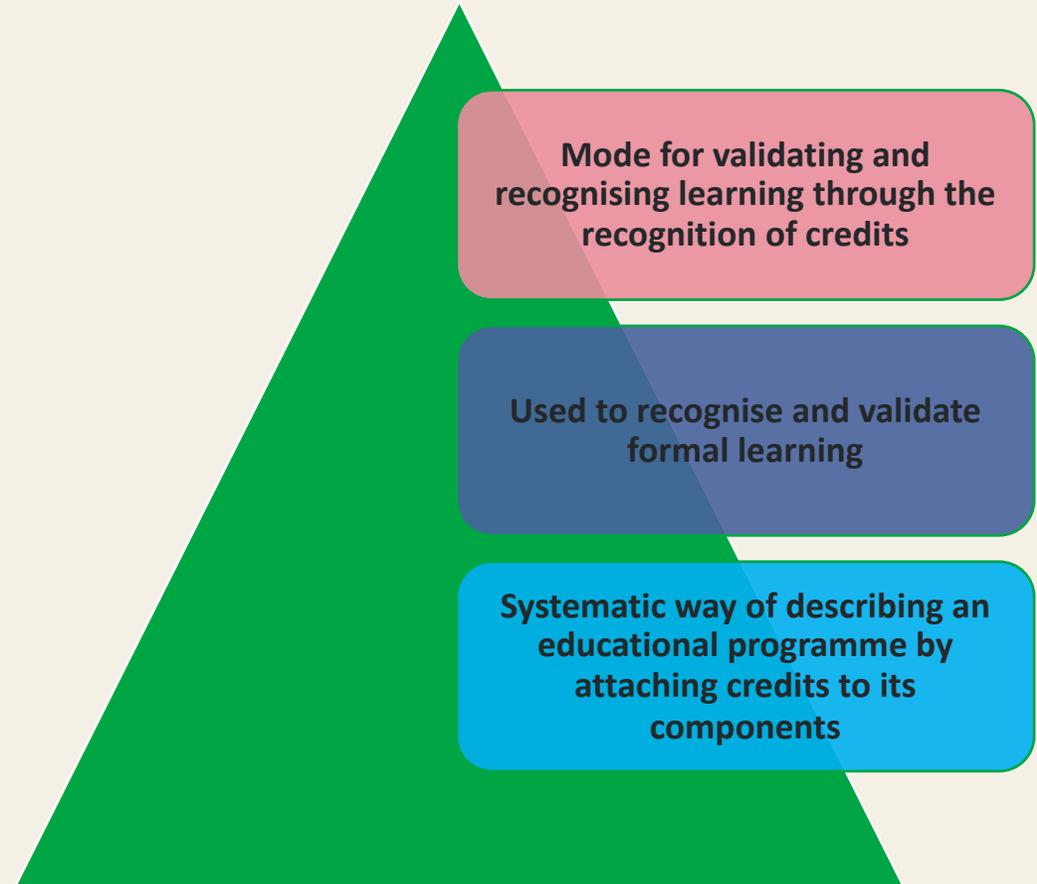

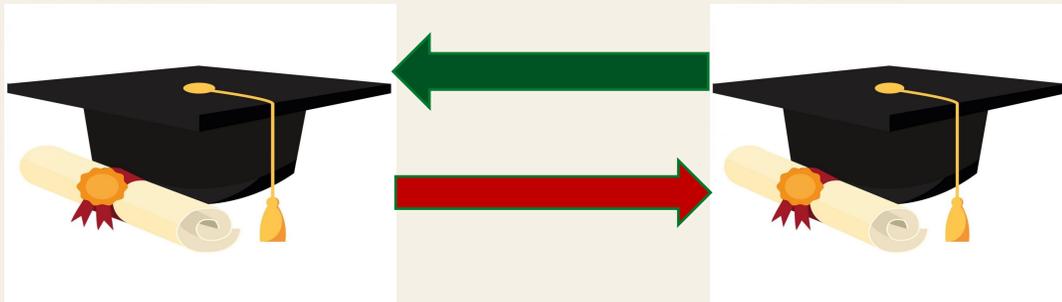

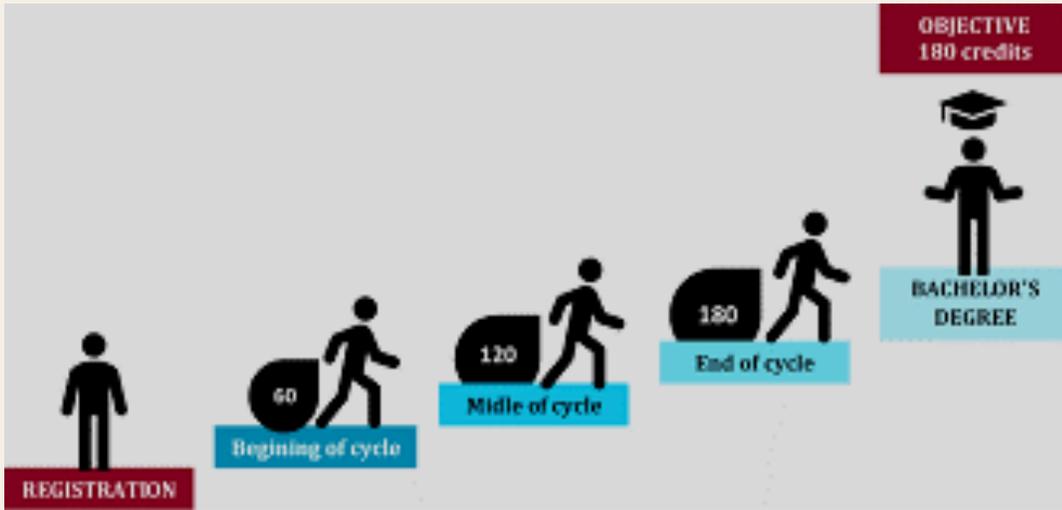

# Topics to be covered

## Participants will gain better appreciation of the following:

- What is CATS?
- Relationship between CATS and RPL
- Importance of CATS
- Key terms related to CATS
- Key principles of CATS
- CATS implementation stages
- Translation of study/ work hours into credits
- Quality Assurance of CATS
- Polls

# What is CATS?

# Key terms related to CATS

## Credit

- Estimated workload an individual typically needs for achieving related learning outcomes

## Credit accumulation

- Process of acquiring credits for learning towards a qualification

## Credit transfer

- Process of allowing individuals who have accumulated credits in one context to have it valued and recognised in another context

## Credit rating

- Process of determining a numerical value of a programme, course or module

# 02

## CATS – An Overview

# Key principles of CATS

PRINCIPLE  
**1**

CATS should be formulated with a view to promoting learner mobility across sectors, levels and types of qualifications by eliminating duplication of learning

PRINCIPLE  
**2**

Systems and procedures developed in institutions to support CAT should be transparent, fair, flexible and easy to use

PRINCIPLE  
**3**

Decisions regarding credit transfer should be timely, academically defensible and equitable, and based on learning outcomes.

PRINCIPLE  
**4**

Credit awarded in recognition of prior non-formal and informal learning is of equal standing to credit awarded through formal learning

# Key principles of CATS...cont'd

PRINCIPLE  
**5**

In line with the concept of institutional autonomy, CAT should not affect the authority of a receiving institution to make decisions about the admission of learners

PRINCIPLE  
**6**

Credit recognition and credit transfer should not undermine the academic rigour or integrity of the qualification into which the learner is accepted

**7**  
Principle

Institutional commitment and cooperation is central to the optimal functionality of CATS

Principle 8

CATS and its procedures should be subject to rigorous quality assurance measures

# Importance of CATS

**Duplication of learning**

03

# CATS – Policies and Implementation

# Policies Guiding the Implementation of CATS

**Document CAT Processes:** rules and guidelines on how to compare learning outcomes, notional hours, content and competences should be clearly documented

**Establish Internal Quality Committees:** to regulate adherence of the CATS to requirements.

**Develop Articulation and Access Procedures:** progression within sub frameworks should be clearly outlined

# CATS implementation stages

Stage 1: Establishing an administrative structure for the CATS

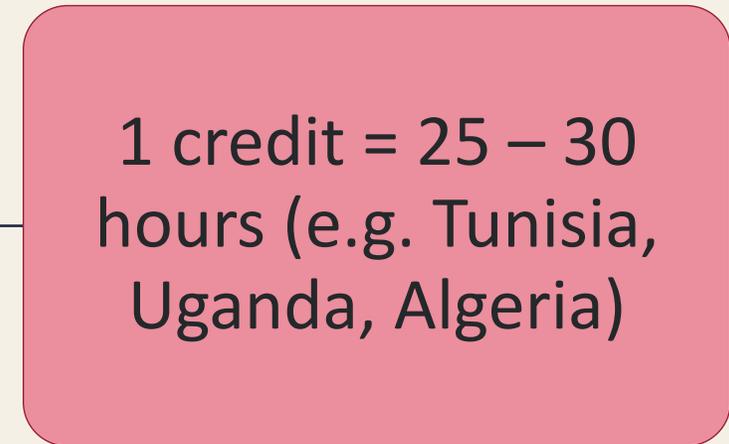

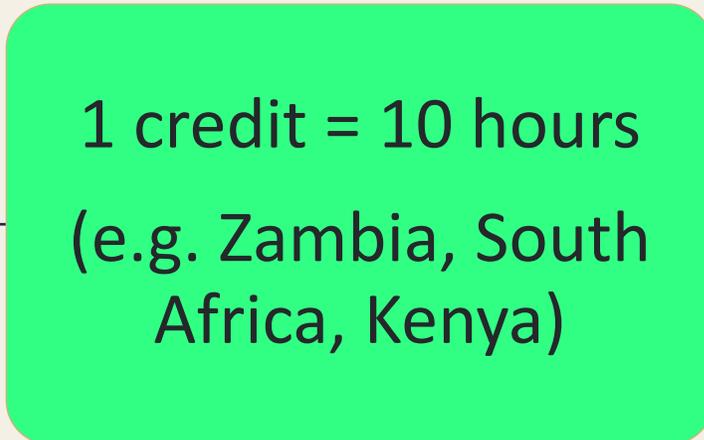

Stage 2: Providing information to learners

Stage 3: Processing applications for credit transfer

Stage 4: Decision making and approval of applications

Stage 5: Documentation and record keeping

# Translation of study/ work hours into credits

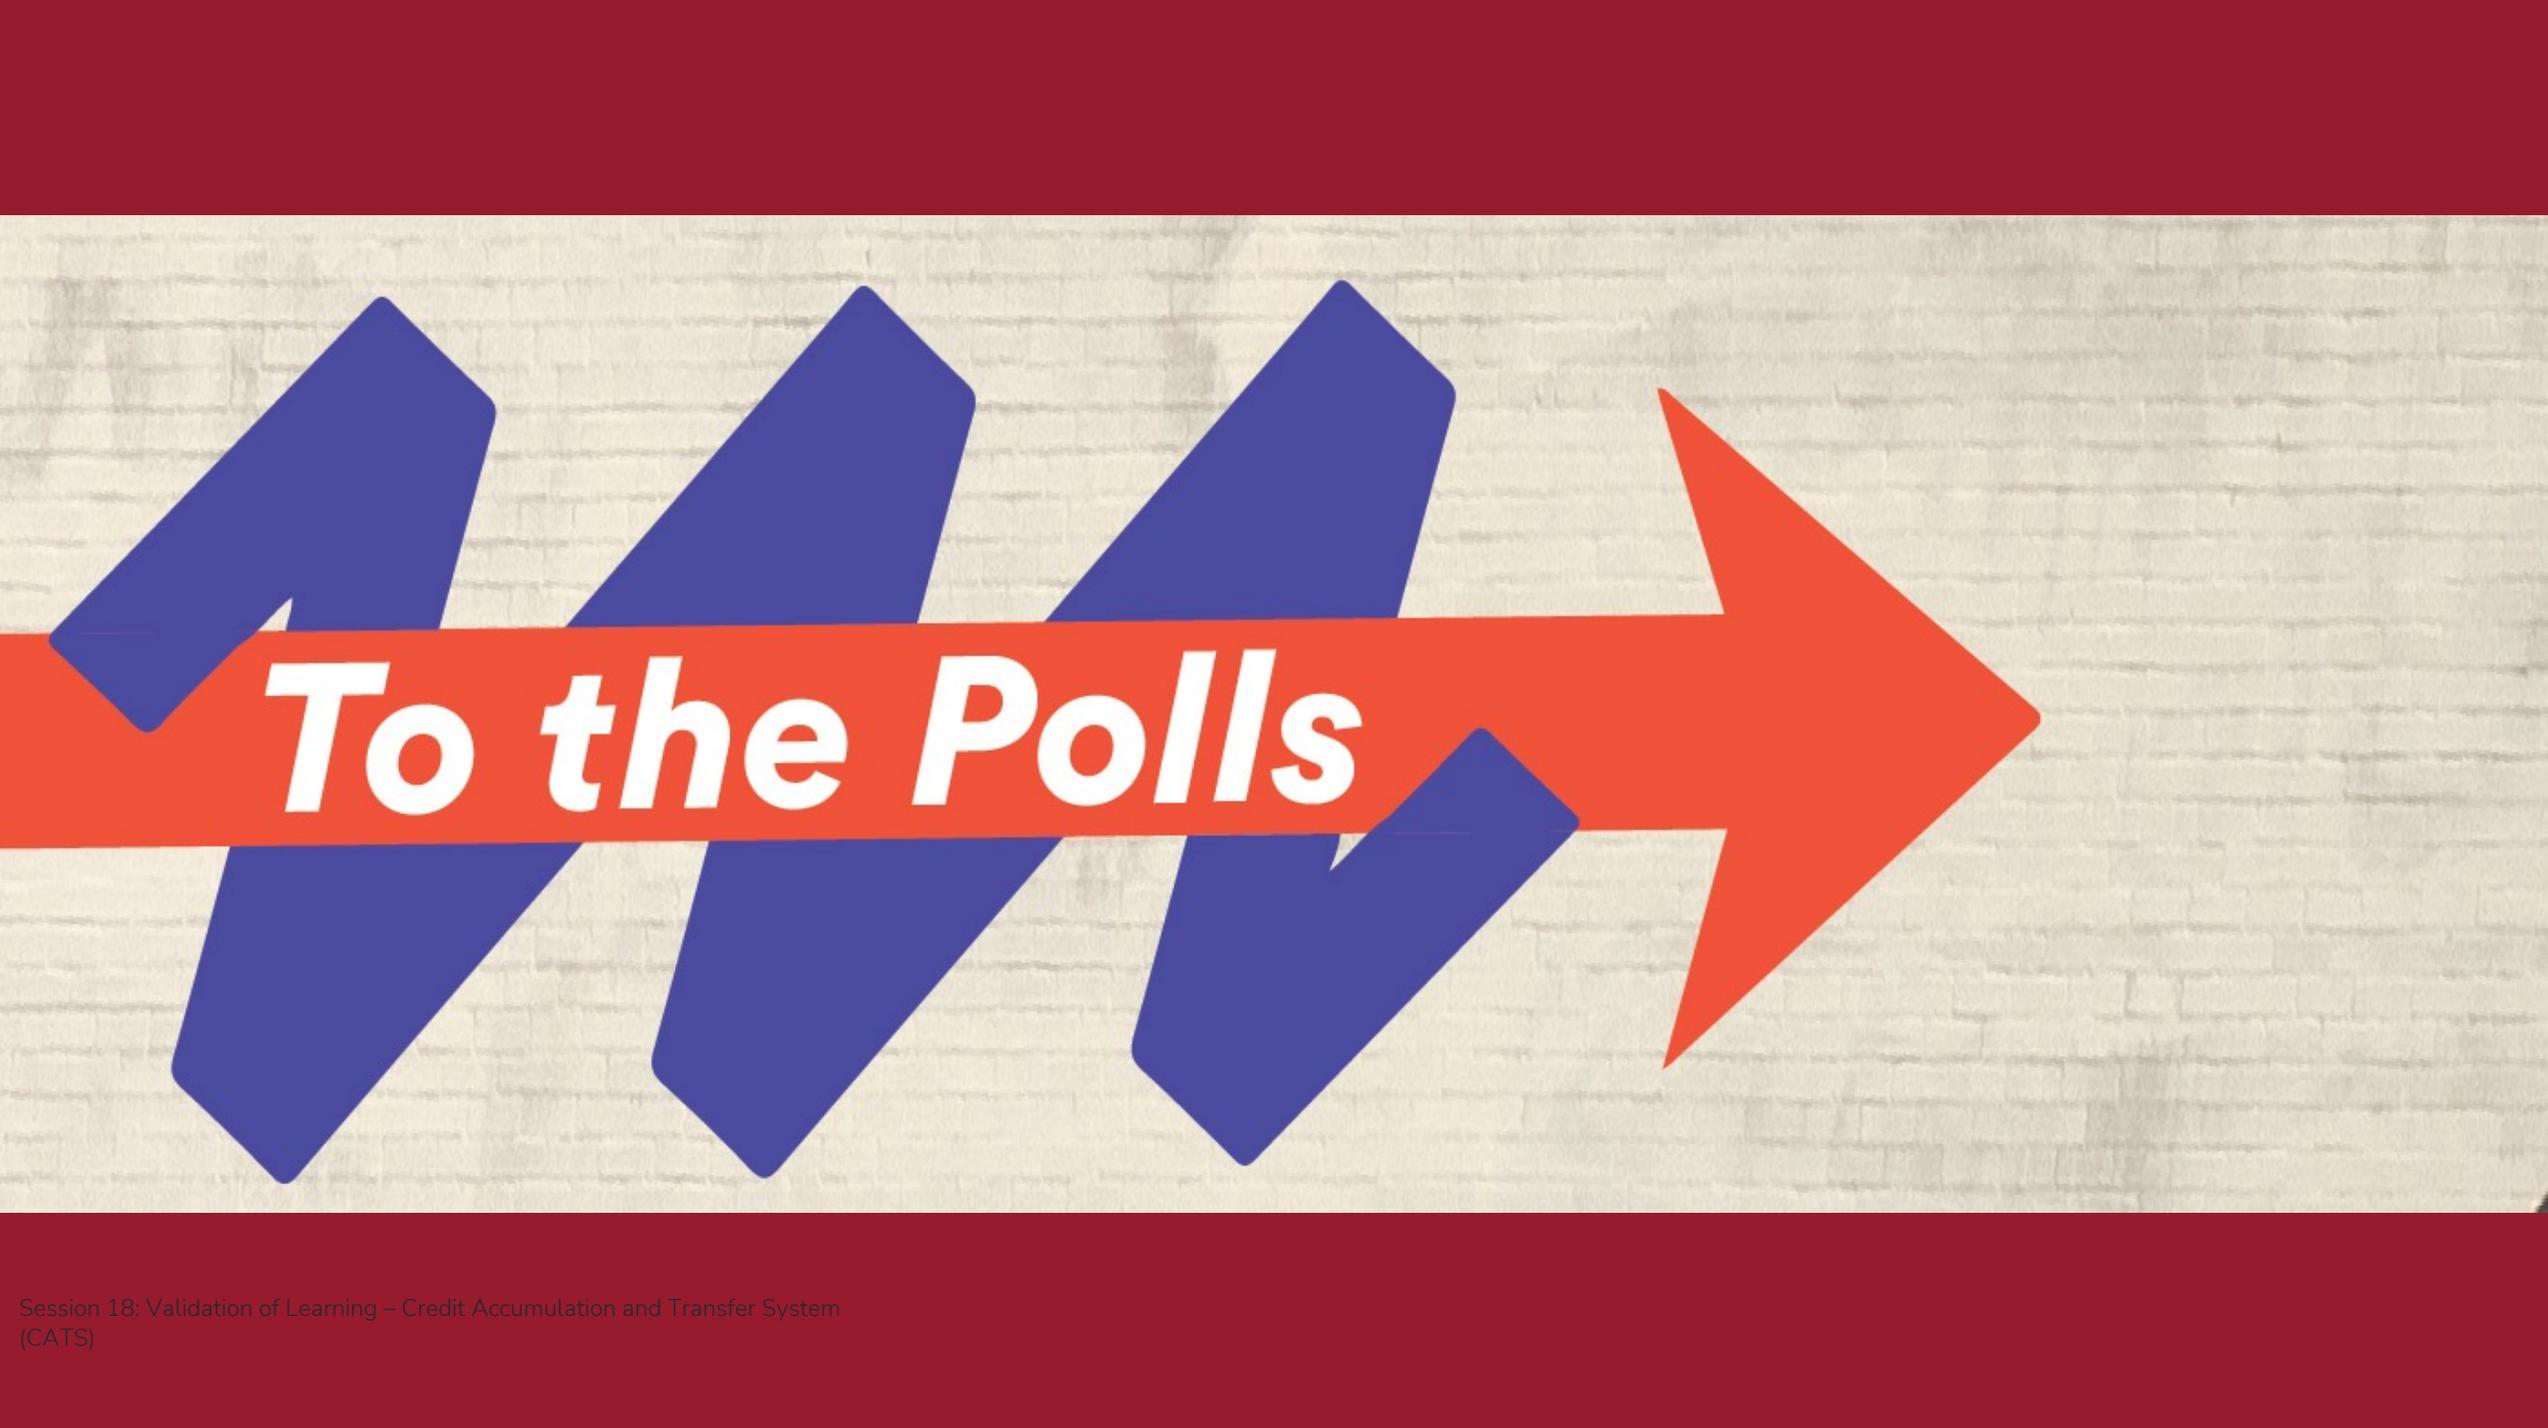

# Challenges to CATS Implementation

Different education systems – e.g. Francophone vs British

Lack of trust among education and training institutions

Differences in content of learning programmes

Absence of clear procedures

***To the Polls***

## Poll 1:

**What is the stage of CATS implementation in your country? (multiple choice question)**

- Planning/ stakeholder consultations
- CAT System development
- Piloting
- Full implementation

## Poll 2:

**What two major challenges/limitations has your country encountered in the implementation or in the efforts to implement CATS?**
