## 1. Introduction

### Rationale and objectives of the ACQF Capacity Development Programme (ACQF CDP)

The ACQF development project organises a capacity development programme on core themes of qualifications frameworks and systems. The purpose is to boost engagement of African Union member states and stakeholders and develop knowledge and a common understanding of key concepts, objectives, types and operational instruments of national and regional qualifications frameworks (NQFs and RQFs). An ACQF Experts Network will pool together the trained participants and contribute to sustainability of the future ACQF in action.

The programme for 2020-2021 will be delivered in two phases:

**Phase 1:** July, September, October 2020 – The series up to seven well-structured webinars entirely devoted to peer learning follows on and brings to a higher level the earlier peer learning sessions delivered during the inaugural ACQF workshop (September 2019) and webinars (May 2020). Phase 1 lays the foundation for the advanced training programme of Phase 2 (2021), by developing knowledge and a common language on key themes and questions of qualifications frameworks, as listed below. Peers from African countries and other continents engage with each other to create bridges for mutual understanding of portability and transparency of skills and qualifications – the fundamental role of qualifications frameworks. Through the diversity of experiences and views, peers explore similarities and clarify differences – the essential role of peer learning.

**Phase 2:** In 2021-2022, the advanced programme will develop in-depth knowledge and engage in practical application. The programme will combine training sessions and e-learning. The ACQF e-learning platform will include the needed resources to support further development and application.

**Main participants:** institutions from African Union member states involved in the ACQF development activities, experts, practitioners and international guest experts.

## Main themes planned for the peer learning webinars in phase 1 (July to October 2020)

1. National Qualifications Frameworks (NQFs) and National Qualifications Systems (NQSs): Main concepts through case studies; context, objectives, rationale and types of qualifications frameworks; new dimensions and developments related with digitalisation, lifelong and life-wide learning; and added value of NQFs for education and training systems and individuals.
2. Regional Qualifications Frameworks (RQF): Objectives, interplay and governance, referencing / alignment, triggers and success factors, main benefits.
3. Developing and implementing an NQF: Common dimensions, different paths.
4. Learning outcomes: Common language of education and the labour market; uses, types, some common guidelines. Role of learning outcomes in NQFs.
5. Levels and level descriptors: Meaning, uses, links with design of qualifications and curriculum.
6. Managing and making the information on qualifications and NQFs more transparent: Registers, databases, catalogues; interconnected qualifications databases. Digitalisation.
7. Quality assurance: Indispensable foundation of NQFs.
8. Governance of qualifications frameworks: Types and models. Participation, regulation, roles and responsibilities.
9. Review and monitoring of qualifications frameworks.

Participants will make sense of the learning path and overall achievement through a debate.

## 2. Findings and learning materials from the previous webinars

The previous peer learning webinars took place on 2/07, 16/07, 10/09, 24/09, 8/10 and 22/10/2020. Shared and discussed the following experiences:

- **African experiences:** NQFs Kenya, Mozambique, Mauritius, Lesotho, Angola, Ghana, Egypt and Zimbabwe, Zambia, Cape Verde, SADCQF, EAC Qualifications Framework.
- **International experiences:** NQFs – Slovenia, Ireland, France, Portugal, Bahrain; European Qualifications Frameworks, ASEAN QRF, Arab Qualifications Framework.
