The three-day workshop aims to;

- build participants' understanding of the referencing process,**
- develop practical skills for mapping frameworks, and**
- prepare them for validation and implementation of the referencing project.**

Day 1: Foundations and Framework Understanding

Introduce participants to the concepts and importance of referencing the NCQF to the ACQF.

Familiarize participants with the structures, methodologies, and technical approaches involved in mapping and referencing frameworks.

Enable participants to analyze and understand the key elements of both frameworks through practical activities.

Day 2: Practical Skills and Application

To guide participants in developing comprehensive reports.

To equip participants with the skills necessary to perform the mapping of NCQF levels to ACQF levels using appropriate templates and mapping techniques.

Day 3: Validation, Reporting, and Next Steps

Develop comprehensive action plans that include key milestones, timelines, roles, and responsibilities.

Provide an opportunity for final questions, feedback, and clarifications to address any remaining concerns.

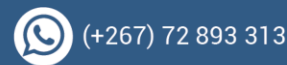

Conclude the session with closing remarks and set the foundation for the next steps in the process.
