Q.5. How useful are the four country case studies presented in the final M&E webinar?

Q.6. How important and urgent do you think the establishment of an operational M&E system for the NQF is within your country?

Q.7. What are the key barriers to implementing an M&E system in your institution?

Q.8. "If you answered 'other' for the previous question, Please provide more details."

Accountability for results
of public policies

N/A

The presentations during the
different Webinars were very
interesting.

Q.9. How do you think these challenges can be addressed and solved, using the knowledge gained from the M&E webinar? Kindly elaborate

Start

Not fear accountability

Has to be one of the primary objectives whether in Acts or decrees. Then it becomes part of the work of the Authority

External backing of bodies like ACQF and political will.

Capacity Building on M&E.

Increased human resource capacity

Capacity building

National M&E platform

Q.9. How do you think these challenges can be addressed and solved, using the knowledge gained from the M&E webinar? Kindly elaborate

Increase funding and human capacity building

Challenge: Many institutions struggle with the lack of reliable data to track performance, outcomes, and areas for improvement.

enhance the impact of monitoring and evaluation on the results of the system

Technical assistance to develop the M&E system and provide training to use and also manage the system
Financial resources

Innovate and listen demand

- Capacity building of staff-
Include M&E activities in annual budgets- Sensitize stakeholders on the importance of M&E and their role in the process

Political will Allocate Resource for M&E
Build Capacity for M&E

We need to take the time to properly train the technical and administrative staff in all sectors and conduct a good awareness and communication campaign to resolve this.

Q.9. How do you think these challenges can be addressed and solved, using the knowledge gained from the M&E webinar? Kindly elaborate

By the implication of politics, capacity building of a big group of human resources

Commitment of all stakeholders from to government to civil society. All key stakeholders should do their part so that funds and resources are provided for M&E activities and appropriate support .

These webinars likely highlighted the importance of structured data collection processes. Reliable data is crucial for assessing program success, identifying gaps, and ensuring accountability.

Imbede M&E framework into NQFs

To have technical staff in place

Exchange practical experience from countries at different stages of implementation.

We need to take the time to properly train the technical and administrative team in all sectors and conduct a good awareness and communication campaign to resolve this

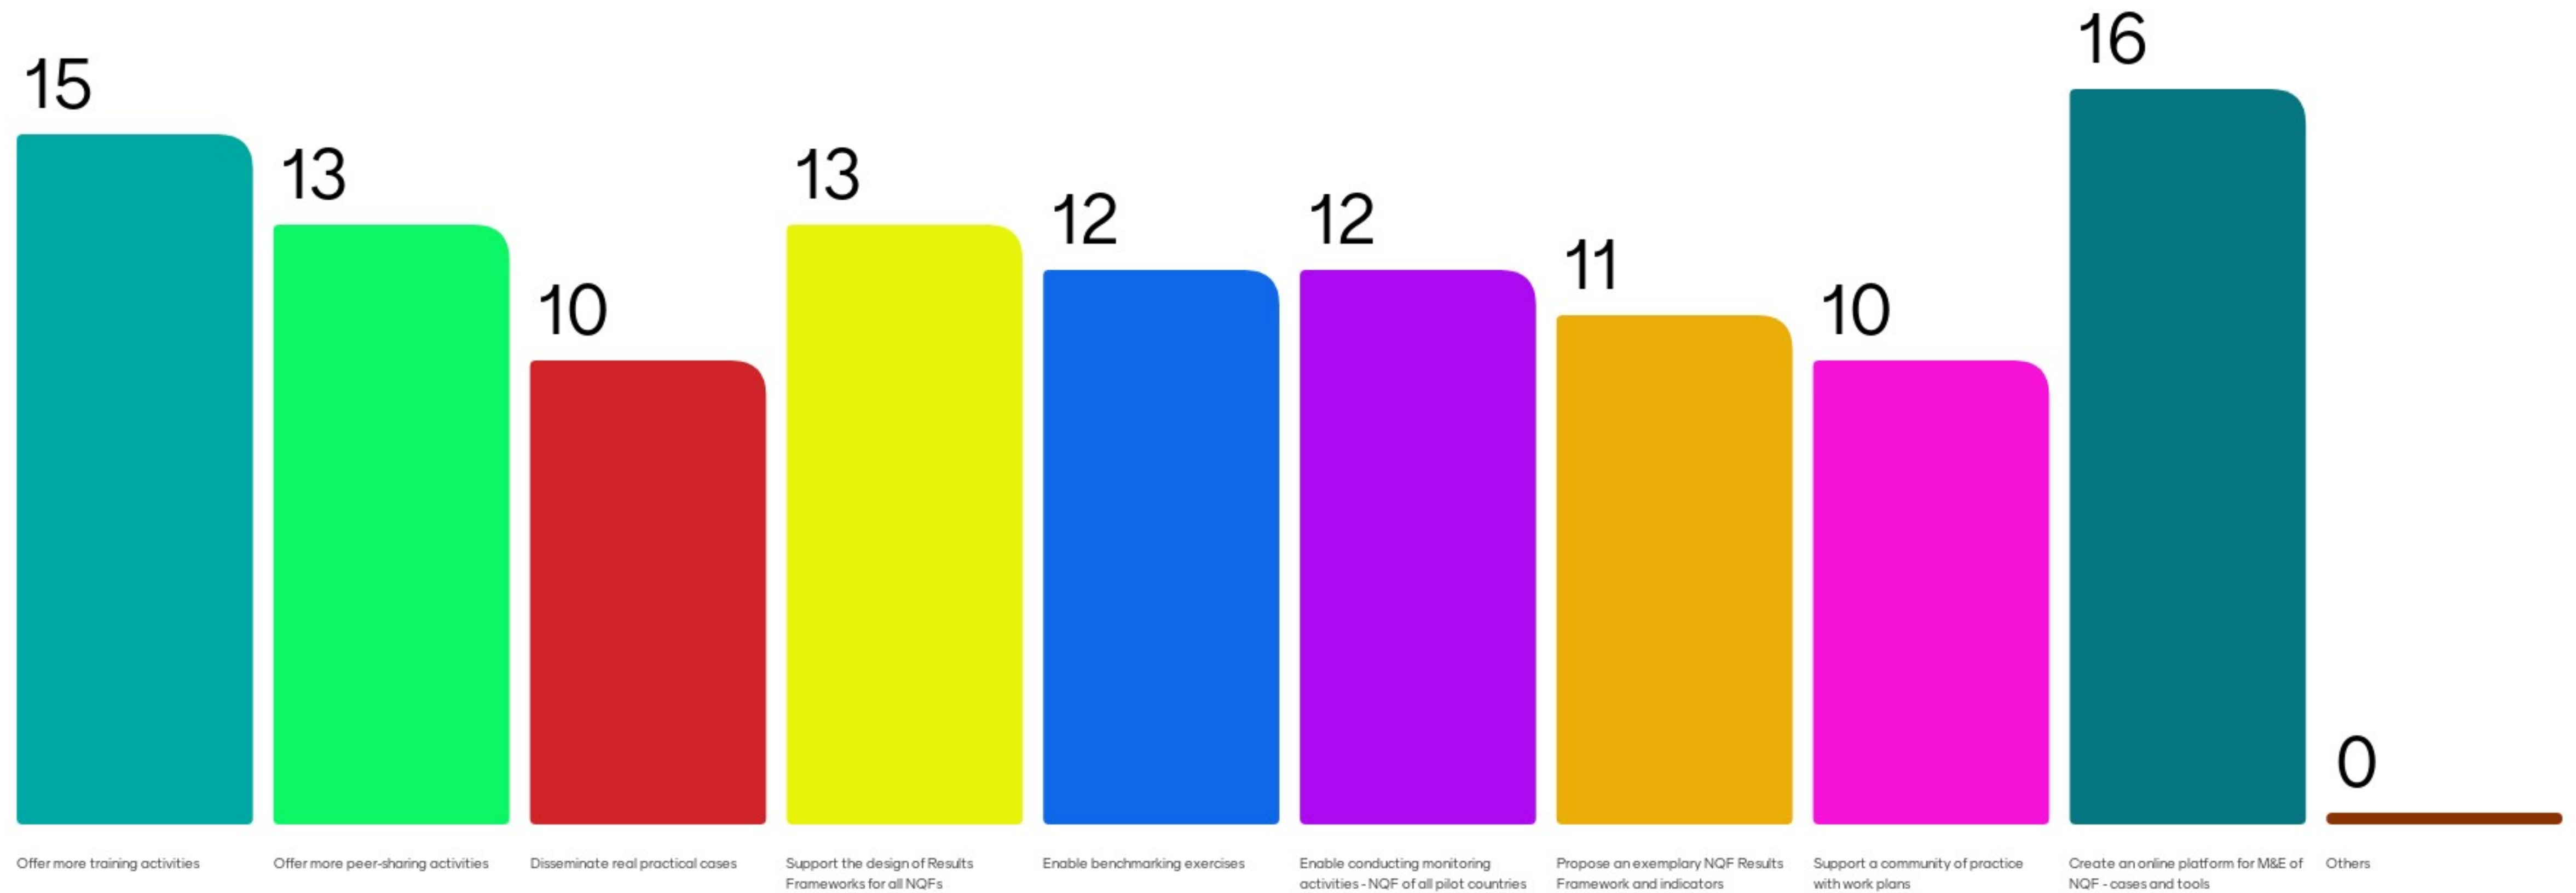

Guarantee commitment by all stakeholders.

Q.9. How do you think these challenges can be addressed and solved, using the knowledge gained from the M&E webinar? Kindly elaborate

Funding allocated to
M&E and human resource

Providing sufficient
budget

Q.10. How can the ACQF further support the development and operationalization of M&E for NQF?

Q.11. "If you answered 'other' for the previous question, Please provide further details."

Q.12. Please enter any other feedback you may have below.

Good activities conducted by ACQF project

The webinars were educative, thanks to ACQF and team.

The series were well organized and delivered. Keep it up!

Thanks and let us start with M E in all countries

Wonderful and very interested informations for my country

Have one more session where we can have other countries voluntarily present M&E situations in their countries.

Sierra leone we missed out on webinar 3.

The webinars provided great insights and it made countries to realise that it is doable

Q.12. Please enter any other feedback you may have below.

This partnership must be continued!

By emphasizing data-driven decisions, the webinar provides tools and frameworks to improve the quality of decision-making. It helps organizations move away from anecdotal evidence and focus on results.

N/A

I hope this partnership (ACQF - ETF) will be continued.

I just want to thank ACQF for this initiative and for the presenters for giving insights on their experience. I would recommend an in-person training or workshop for days with practical work.

Thank you for your participation in the webinar series.
